

Opening a New Shopping Mall in Kuala Lumpur, Malaysia

Business Problem

- Location of the shopping mall is one of the most important decisions that will
- determine whether the mall will be a success or a failure
- Objective: To analyse and select the best locations in the city of Kuala Lumpur, Malaysia to open a new shopping mall
- This project is timely as the city is currently suffering from oversupply of shopping malls
- Business question
 - In the city of Kuala Lumpur, Malaysia, if a property developer is looking to open a new shopping mall, where would you recommend that they open it?

Data

Data required

- List of neighbourhoods in Kuala Lumpur
- Latitude and longitude coordinates of the neighbourhoods
- Venue data, particularly data related to shopping malls

Sources of data

- Wikipedia page for neighbourhoods
(https://en.wikipedia.org/wiki/Category:Suburbs_in_Kuala_Lumpur)
- Geocoder package for latitude and longitude coordinates
- Foursquare API for venue data

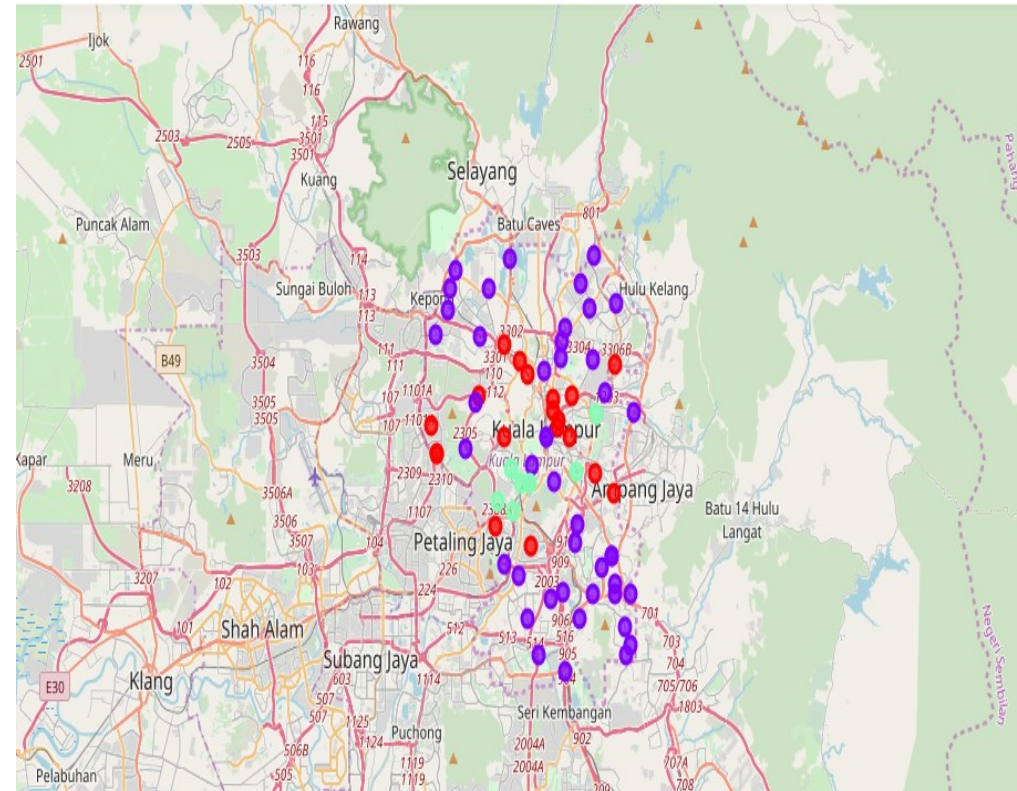

Methodology

- Web scraping Wikipedia page for neighborhoods list
- Get latitude and longitude coordinates using Geocoder
- Use Foursquare API to get venue data
- Group data by neighborhood and taking the mean of the frequency of occurrence of each venue category
- Filter venue category by Shopping Mall
- Perform clustering on the data by using k-means clustering
- Visualize the clusters in a map using Folium

Results

- Categorized the neighbourhoods into 3 clusters :
 - ➔ Cluster 0: Neighbourhoods with moderate number of shopping malls
 - ➔ Cluster 1: Neighbourhoods with low number to no existence of shopping malls
 - ➔ Cluster 2: Neighbourhoods with high concentration of shopping malls

Discussion

- Most of the shopping malls are concentrated in the central area of the city
- Highest number in cluster 2 and moderate number in cluster 0
- Cluster 1 has very low number to no shopping mall in the neighborhoods
- Oversupply of shopping malls mostly happened in the central area of the city, with the suburb area still have very few shopping malls

Recommendations

- Open new shopping malls in neighborhoods in cluster 1 with little to no competition
- Can also open in neighborhoods in cluster 0 with moderate competition if have unique selling propositions to stand out from the competition
- Avoid neighborhoods in cluster 2, already high concentration of shopping malls and intense competition

Conclusion

- Answer to business question: The neighbourhoods in cluster 1 are the most preferred locations to open a new shopping mall
- Findings of this project will help the relevant stakeholders to capitalize on the opportunities on high potential locations while avoiding overcrowded areas in their decisions to open a new shopping mall
